Office Action Summary

Art Unit 1712

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 31 and 32 are rejected under 35 U.S.C. § 102(b) as being anticipated by Cazenave 4,118,521, esp. Examples 1 and

3. While Cazenave may not state that his compositions are solvents for extracting oil-bearing material containing a combination of triglyceride oil and phospholipid oil, the recitation of a new or different intended use does not render an old composition new or patentable. See In re Thuau, 1943 C.D. 390; 554 O.G. 14; and In re Zierden, 411 F. 2d 1325; 162 USPQ 102.

3. Claims 31 and 32 are rejected under 35 U.S.C. § 102(b) as being anticipated by Kresse 4,059,604, esp. Example IV. While Kresse may not state that his compositions are solvents for extracting oil-bearing material containing a combination of triglyceride oil and phospholipid oil, the recitation of a new or different intended use does not render an old composition new or patentable. See the decisions cited in the preceding paragraph.

4. The non-statutory double patenting rejection, whether of the obvious-type or non-obvious-type, is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent. *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); *In re Van Ornam*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); and *In re Goodman*, 29 USPQ 2d 2010 (Fed. Cir. 1993).

Art Unit 1712

A timely filed terminal disclaimer in compliance with 37 CFR 1.321 (b) and (c) may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.78 (d).

Effective January 1, 1994, a registered attorney or agent of record may sign a Terminal Disclaimer. A Terminal Disclaimer signed by the assignee must fully comply with 37 CFR 3.73 (b).

5. Claims 1-5, 9-14, 16, 31 and 32 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 31 and 32 of copending application Serial No. 10/081,319. Although the conflicting claims are not identical, they are not patentably distinct from each other because the instant claims read on, or at least overlap, the claims of the '319 application.

This is a *provisional* obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.

6. Applicants' arguments with respect to claims 1-5, 9-14, 16, 31 and 32 have been considered but are deemed to be moot in view of the new grounds of rejection.

7. Applicants should revise the paragraph inserted on page 1 of the specification (by pre-amendment A filed February 21, 2002) to recite the status of the parent case, now U.S. Patent No. 6,547,987.

8. Note that U.S. Patent No. 6,547,978 is cited on the attached Form PTO-892.
